Dec 2021 - Present Sr. Product Designer, Order

Concept, design and implement visual design mockups and prototypes to help solve user pain points and increase confidence and satisfaction.

Partner cross-functionally with engineers and product managers to create a delightful experience for users.

Talk to users (and most importantly, listen) to understand what how we can help them solve their problem.

Aug 2019 - Nov 2021 Sr. Product Designer, Navis

Work cross-functionally with Product and Engineering partners to represent the design team, facilitate design discussions, and ensure consistent design quality.

Collaborate closely with Product and Engineering leadership to define features and contribute to the overall direction of the Navis product suite.

Design flows, prototypes, sketches, and high-fidelity UI mockups for handoff to engineers.

Establish new design system for the next generation of the Navis product suite.

Work extremely closely with Engineering to ensure a high-quality implementation and user experience.

Oct 2017 - Sep 2018 Design Director, Pyxl

Lead team of designers, develop creative strategy, present and pitch design solutions to clients.

Work with the design team to meet deadlines, hit client benchmarks and consistently produce thoughtful, creative work that produces measurable ROI.

Produce beautiful and effective design deliverables focused on delightful user experience and client business goals.

Sep 1999 - Sep 2017 Lead Designer, Third + Grand Design

Digital design agency where I led a team of designers and developers in creating websites, brand identities and mobile applications for businesses and non-profits.
